

THE BRITISH COLONIST.
Monday Morning, Nov. 16, 1868.
TO ADVERTISERS.
Transient Advertisements must be paid for in advance on insertion.
AGENTS.
Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.

That the proposition to have Sir James Douglas appointed Administrator in the event of the retirement of Governor Seymour, will meet with favor at the hands of the gentleman proposed to be honored, we have not the faintest reason for imagining; nor should we again refer to the proposition were it not to correct an error or two into which it would appear that our esteemed correspondent "A. deC." has fallen. That gentleman, in his anxiety to prevent the return of Sir James to the head of the Executive, has allowed his zeal to get the better of his judgment, and has rushed warmly to the defence of the present incumbent. Where, when or how this newborn love for the chief Executive officer of the Colony first took root in the heart of "A. deC." we are uninformed—but it is quite evident that it has obtained deep hold, and is already approaching the season of fruition. "The system of Government," he writes, "is at fault, not the Governors," and he deprecates any change until a new Constitution shall have been provided. Now, we hold that both the system and the Governor are at fault, and that a plan which will rid us of one evil will pave the way for the removal of the other. Is it not clear to the unprejudiced mind that if Mr Seymour were the efficient ruler "A. deC." claims him to be, he would at once suggest reforms that the most stupid tyro in political economy knows perfectly well are requisite and necessary for the growth and prosperity of the country; and that were he succeeded by a gentleman of energy and ability, actuated by a sincere desire to see the Colony advance in everything good and great, these reforms would be secured? Why, we have only to look back a few months to find "A. deC." complaining grievously at the action of the Home Government in depriving us of our Representative Institutions—a deprivation which Governor Seymour in his Paris letter urged as a necessary measure upon the Home Government—and to-day he objects to the return to office of the gentleman through whose efforts Representative Institutions were first granted us. How inconsistent! The attempt to place the burthen of Mr Seymour's acts of omission on Sir James' shoulders, is another serious error under which our correspondent labours. Governor Seymour has been for two years ruler of the United Colonies, during which time, candor impels us to say, he has suggested no wise or beneficial measure, and has absolutely allowed to fall into disrepute and disrepair the good the Colony derived from the labours of the Douglas and Kennedy Governments. Take among the most prominent, the Free School system, with teachers unpaid, and school-houses out of repair. Look at our Mail Service, with passengers and letters detained at both ends of the route for an indefinite period. Look at the double postage collected on letters; and the dishonor of our Colonial Stamps by Imperial authority—at the state of our roads—at James Bay bridge, closed to traffic for upwards of two years and a-half—and will "A. deC." persist in telling us that with the exchequer at his control without a check upon the expenditure, Mr Seymour did not have it in his power to remedy most of the grievances of which "A. deC." himself has expatiated so eloquently and often in the Council Chamber? Has the "system" anything to do with these trifling "omissions"? And what part or lot, pray, did Sir James Douglas have in them? The "system" provides an Executive Council for His Excellency, but is our correspondent aware that at least three months have elapsed since that Council was called together, during a period, too, when the Angel of Death, in the form of a loathsome and infectious disease has smote terror to the hearts of our people, and selected his victims indiscriminately from our midst? We do not ask these questions from a desire to blame Governor Seymour with dereliction of duty. We attribute the evils entirely to the unfortunate state of His Excellency's health, which is such as to unfit him for the transaction of business, and we ask every candid, thinking and unprejudiced person in this community whether, under the circumstances, with public affairs demanding prompt and vigorous action, His Excellency is justified in longer retaining the helm when it has become painfully evident to even himself that he is unable to steer the ship?

OVERLAND RAILWAY.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectfully to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery, Scissors, &c., ex "Bolivia."—T. THE BRITISH COLONIST.
Monday Morning, Nov. 16, 1868.

Editorial Correspondence—No 27.
BROCKVILLE, ONTARIO, Sept 8, 1868.

I arrived at this pleasant little Canadian town last evening, via the Grand Trunk Railway, from Hamilton, and was much pleased to find here the Hon A N Richards and Mr Henry Griffin. The first named gentleman paid Victoria a flying visit in January last, and though not a British Columbian in fact, is, I can assure you, one in spirit, and expresses himself so highly gratified with what he saw and heard while there that he has serious intentions of removing with his interesting family thither early next Spring. Men of Mr Richards' stamp have always met with a cordial welcome at the hands of any colonist, especially when they furnish such positive proof of an intention to settle among us as he proposes. Mr Griffin is an old Caribooite and an ardent British Columbian, notwithstanding he left the country poorer in purse than when he entered it. He looks forward with a pleasurable feeling of anticipation to the day when he, too, shall join the returning stream of immigration which must ere long set in towards our shores, and unite his future 'for better or for worse' (as some of the marriage ceremonies have it) with his old associates. How favorably do the expressions of this gentleman contrast with those of some of the men I met with at San Francisco, who owed their start in life to the partial success which had attended them in British Columbia. One person who, it was notorious, brought only a few soiled shirts into the Colony and took out several thousand dollars, was industriously engaged during the Colony on street-corners and at hotel doors. Another creature who came with nothing, made a small fortune and squandered it in drinking and gaming and 'strutting his brief hour' on Government street, while his betters were at work laying a solid foundation for future prosperity, was loud in his denunciation of the 'way he had been swindled out of his money up there.' A third ran away, leaving \$10,000 of indebtedness behind him, and I found him on 'change gambling in stocks, and prophesying the speedy downfall of British power on the Pacific. And still a fourth, who crushed in the face of a fellow-subject, committed perjury and fled to avoid punishment, I found a head centre (if you please) in the Fenian organization, and impatiently awaiting the day when he may return and revenge himself upon his persecutors. Of such, as a rule, are the detractors and villifiers of our Colony composed. Some of the very men who owe it most are loudest in their complaints; while those who, like Mr Griffin, have been pecuniary losers through their connection with it, are generally willing to concede that their ill-luck was attributable to causes inseparable with, and incidental to the settlement of every new country, and not likely again to occur in British Columbia.

Among the fortunate Caribooites who acknowledge with satisfaction their deep obligations to the country, I may mention Mr J. A. Cameron and Mr James Watty, both of whom acquired competencies on William Creek. From the first named gentleman the village of Camerontown, Cariboo, takes its name; and Mr Watty was the principal owner in the rich Watty claim in the same locality. Mr Cameron has returned to the home of his childhood, purchased the old homestead, and erected a perfect palace on the site of the original farm-house. His residence stands on the Canadian bank of the famed St. Lawrence River, about 9 miles east of Cornwall, and commands a fine view of some of the most beautiful scenery the Continent can produce. His farm consists of 192 acres, in a high state of cultivation, and surrounded by a substantial stone wall. The farm is known to the neighbors as the Cariboo Farm, and is a model of neatness and thrift. The hospitality of Mr Cameron and his amiable and accomplished wife are unbounded, and his popularity in the neighbourhood is deservedly great. Mr Watty has a large woolen mill at a place called Valleyfield, lower down the river, in successful operation; but, in common with Mr Cameron, he never tires of relating his experiences in the gold mines of British Columbia, and in recalling the many pleasant hours he has passed there.

At Ottawa I saw Mr Fred. Toller, formerly connected with the Bank of British Columbia, at Victoria. Mr Toller is now in the employ of the Bank of British North America, but looks confidently forward to a day (which all his friends will hope is not far distant) when he may return to our Island and settle down among us. Mr Malcolm Cameron is also at Ottawa. He is Queen's Printer of the Dominion, and in company with Mr Desbarrats, has a large establishment, over which I was courteously shown. Mr Cameron will be remembered better as the 'delegate' from New Westminster to Downing street, in 1862. The honorable gentleman is now a cripple, he having been run over by a runaway horse about a year ago, sustaining a fracture of one of his legs. Otherwise his bodily health is good and his flesh increasing so rapidly as to seriously threaten Daniel Lambert's reputation as the most obese Briton that ever lived.

But the flood of recollection which the sight of so many faces once familiar to British Columbian scenes produced has nearly driven from my mind the town in which I am at present sojourning. Brockville contains about 5000 inhabitants. Its buildings are generally of granite, and many of them are fine structures. The Court-house, Markets and Churches are worthy the inspection of travelers. A railroad extends from Brockville to the lumber and iron districts of Ottawa, and large quantities of both products are transported by rail to this point for shipment. Brockville is at the foot of the picturesque locality, known as the Thousand Islands, which stud the St. Lawrence for many miles, and which form objects of interest and admiration to tourists from every part of the world.

Nanaimo Election—Mr Ring Returned Unanimously.
The nomination of a candidate to represent Nanaimo took place in the Court-house on Thursday. After the usual preliminaries, Captain Spalding called upon the electors to nominate some gentleman to be a member of the Legislative Council.

Dr Grant proposed Mr David Babington Ring as a fit and proper person to have the charge of our interests in the Council of the Colony. Mr Gough seconded the proposition. No other candidate being proposed, a show of hands was called for. Everyone in the room being held up for Mr Ring, he was declared unanimously elected. (Cheers.)

Mr Ring, in returning thanks for the honor conferred upon him, briefly touched upon the different questions he should advocate, reiterating the statements made on a former occasion, and urging upon the electors the desirability of co-operating with him by petitioning for such grants and measures as were required. He alluded to the fact that the Government had decided to re-build James Bay bridge at Victoria, and he thought on that ground the Nanaimo bridge should receive attention from the same quarter. [Here Captain Spalding remarked that he had instructions to have the bridge across Commercial Inlet repaired. Cheers.] Mr Ring strongly urged upon the electors the necessity of the united efforts of the colonists being exerted to reclaim the lot of liberty of choosing, without any restriction, who should represent the people in the Legislature. On the subject of protection, he said the best protection the farmer could have was good roads to the nearest market and to ports of shipment. In alluding to the cause of his not visiting Comox, he observed that owing to the delay of the Douglas and the expectation of the agency on the Isabel he deemed it best to stay at headquarters, leaving the pickets to guard the out-ports. He concluded by assuring the electors that he should endeavor to the utmost of his power to have a portion of the revenue derived from Nanaimo expended in the town on works of immediate public necessity. (Long applause.)

Three cheers were given for Mr Ring and three for Captain Spalding, and the assembly dispersed.

MASONIC FUNERAL.—Yesterday the earth closed over the mortal remains of Mr Paul Medana, a kind husband and father, a consistent Free Mason and a worthy and respected pioneer resident of Victoria. Mr Medana died of aneurism on Saturday evening last. His death, though not unexpected for many months, was extremely sudden. The funeral took place under the auspices of the Masonic Order of this Colony. The brethren met at Masonic Hall at 2 o'clock, p.m., and after the usual preliminary exercises had been gone through with, under the direction of Bro Robt Burnsby, District Grand Master, E R, a procession was formed under the able direction of Bro Lumley Franklin, Grand Director of Ceremonies, and preceded by the Volunteer Band. In the line we observed Bro J W Powell, Provincial Grand Master, R S, and officers; the officers of District Grand Lodge, E R; Victoria Lodge, 421, E R; Vancouver Lodge, 421, R S; British Columbia Lodge, 1090; together with members of other Lodges, and citizens. The regalia worn by the officers and members of the Grand Lodges were very handsome and attracted universal admiration. The body was borne from James Bay to the cemetery, where the burial service of the Order was read over the grave by Bro Burnsby, and the solemn and impressive rites performed, after which the brethren returned to their Hall and were dismissed. The funeral was one of the most numerous attended we have observed here, the deceased being known to all classes as an amiable, upright and generous-hearted citizen.

To imperfect punctuation is sometimes due the most laughable as well as the most absurd and grave mistakes. All our readers will remember the grammar example of 'Cæsar entering on his head, a helmet in his hand,' etc; and the amusing jumble of ideas which therein occurs from the misplacing of a comma or two. An error of a similar character occurred to our New Westminster cotemporary on Saturday. In speaking of the probable retirement of the Governor, by a mistake of a compositor he is made to assert 'unhesitatingly and fearlessly, that should Mr Birch be appointed, ninety-nine out of every hundred on the mainland, at least, would join heartily with us in saying, *Let it be Mr Birch!*' The evident intention of our cotemporary is destroyed by the absence of a comma after the word 'be,' and he is made to ensure an unqualified endorsement of Mr Birch by a large majority of the mainlanders, when such a design was farthest from his thoughts. The paragraph as corrected in next week's *Columbian* will probably read something like the following—
"Should Mr Birch be appointed (of which, fortunately, there is little prospect) as he stepped forward to grasp the sceptre, we unhesitatingly and fearlessly assert that ninety-nine out of every hundred on the mainland, at least, would join heartily with us in saying—*Let it be, Mr Birch!*"

CARIBOO WAGON-ROAD.—We have news from private sources to the 5th November. Snow lay about six inches deep on Williams Creek, and sleighs were running between Barkerville and Beaver Pass, a distance of 30 miles. The prospectors on Tom, Hard-scrabble and Sugar Creeks had laid in a supply of provisions for winter use and intended to prosecute vigorously their work on tunnels and shafts. A few claims were at work on William Creek. From Quesnellmouth down to within four miles of Clinton, there were 14 inches of snow on the wagon road. The road from Lytton to the suspension bridge is in an awful state and the telegraph wires lie along the road.

FROM BURNARD INLET.—The steamer Isabel, Capt Deveraux, arrived late last night from the Inlet.

The Surveying Cruise of the "Beaver."
CONCLUDED.

On the 31st August Lieut. Coghlan returned from the Portland Inlet. The following is his description of that famous arm: The Portland Inlet was found to be about 70 miles in length and bearing the same general characteristics as the numerous other inlets; snow clad mountains 3,000 to 4,000 feet high down the sides of which numerous waterfalls run. The head of the Inlet was found to terminate in a low marshy swamp, with a high peak of 6000 feet in the background; reports as of distant thunder were heard at intervals caused by the avalanches as they rolled into the valley beneath with a dull sound which reverberated from peak to peak. Here we found camped the most powerful chief of the Nass Indians, Tchatoquo, and a very large party catching and drying salmon. They were extremely civil, and when we landed insisted on carrying up to our tent all our gear. We pitched our tent near the camp on the Saturday; and on Sunday, Thomas, our interpreter, a Christian Indian from Metlakatlah, held Divine Service, morning afternoon and evening, in the Indian ranch. Thomas had a fluency of language that must have astonished the natives. The singing was very good, the female voices especially; but the smoke of an Indian house in which salmon is being dried, being anything but conducive to comfort, and our knowledge of Tsimshian being very limited, detracted somewhat from our pleasant participation in the interesting ceremony. We suppose that Thomas must take to himself the credit of being the first who taught Christianity at the end of British Dominion; we were then camped on the boundary line between Alaska and British Columbia, and it was quite a different matter to preaching a Gospel in a snug house at Metlakatlah, which was then about 130 miles away to the southward. The Nass Indians were at war with the Tsimshians; and strange to say a Tsimshian canoe with the father, mother and sister of a Tsimshian Chief, Nish-pi-las, (who had murdered a Nass Chief, and the very man who was the cause of all the trouble), had been found by the Nishkah's, and treated with every kindness; this presented a striking contrast to the conduct of the Tsimshians, who, so the rumor went, had waylaid a Nass canoe, and murdered a helpless woman and child. On Monday we were to commence our work again, but to our alarm we found that a short distance down the river a terrific rapid had formed; we had entered the river at high water, and at that time there was no indication of any irregularity; but when the tide had commenced to ebb the sight was perfectly appalling. Several rapid torrents, caused by the melting of the snow from the mountains, met at one spot; and the combined body of water rushing on with increased velocity had its progress intercepted by a rock in mid-channel, and here lay the danger; to have attempted to pass down in our boat would have been simple madness, for had we touched anywhere the boat must have capsized, and we of course been drowned, or frozen by the icy cold water. The Indians here came to our aid and lent us canoes. The way in which they managed them was perfectly marvelous, shooting down, following the channel, now one side, now the other, at an alarming pace; our very unenviable position came to a climax as we neared the rocks over which the water was foaming and leaping. Suddenly we seemed to be going right on to the rocks, and then in a second, just as our bow had all but touched it, the boat was reversed by sticking a pole in the ground, and in a moment we had shot passed all danger. Tracks of bears were very numerous; there was no mistaking the large foot prints in the soft mud, and the Indian chief shot a large brown bear that was swimming down the river. Having completed our examination we were not loth to leave this dreary and most desolate of spots. The reflection from the snow during the day was very trying; and a scorching hot day was always succeeded by a frosty night, and this too in August; a change which we did at all appreciate. The snow near the head of the Inlet was only 40 feet from high water mark. We took advantage of high water to get out of the river, glad to leave the monotonous mountains, and the still more dreary waterfalls.

On the 14th September we left Port Simpson for the southward, reaching the Bella Bella Village on the 17th September; the following week was occupied in surveying the Fisher Canal and making a large plan of Port John, one of Vancouver's anchorages. On the 26th September we crossed Queen Charlotte Sound, having been detained in Safety Cove one day by a dense fog, and made the land by Shadwell Passage where the ill-fated, Swaneau lies bilged. The second whaler was here detached to re-survey the passage on a larger scale. The Nahu-wite Indians behaved very badly during the boat's stay; a more filthy and degraded tribe are not to be found on the coast. They had plenty of whiskey in their camp, for which they had bartered plunder from the Swaneau, and divided their time between howling insanely and firing off their muskets. They were to have celebrated the boat's departure by eating a slave; but postponed that little or on account of her abrupt return for one day to escape a S E gale. The Beaver left Fort Rupert on the 10th October and was lucky enough to reach Nanaimo on the 24th; the fog lifted, and we left Nanaimo at 6 a.m.; reaching Esquimalt at half past five in the afternoon. The weather throughout the season (with the exception of the month of July which was wet) has been exceptionally fine, and the cruise has been thoroughly enjoyed by officers and crew.

HOLLOWAY'S OINTMENT AND PILLS.—Outward Infirmities.—Before the discovery of these remedies many cases of sores, ulcers, etc., were pronounced to be hopelessly incurable, because the treatment pursued tended to destroy the strength; it was incompetent to preserve, and to exacerbate the symptoms. It was inadequate to remove the morbid humors. The Ointment and Pills make the blood richer and purer, instead of permitting it to run into that poor and watery state so fatal to many laboring under chronic ulcerations.

Sober Facts for Thinking People.
Year after year, for an eighth of a century, the Press of the country has chronicled the beneficial effects of HOSTETTER'S STOMACH BITTERS. Editors, authors, physicians, men of letters, officers of the army and navy, chemists, counselors, ministers of the gospel, in short, a great cloud of witnesses of every profession, trade and calling, have testified to its efficacy as a tonic and regulating medicine. The names and statements of these witnesses have been published in the public prints. Many of them are well known to the whole public. Their testimony has never been challenged or impugned. Upon evidence far less weighty men are acquitted or condemned by conscientious juries.

HOSTETTER'S STOMACH BITTERS is not, however, upon trial. It has been tried and pronounced on the authority of those whose lives and health it has preserved, a pure, harmless, and eminently salutary preparation. Attempts have been made to rival it. They have failed. Can it be necessary to say why they have failed? Ask the recovered dyspeptics, bilious sufferers, victims of fever and ague, and nervous subjects who have experienced its effects, what they think of it. Ask them and be guided solely by what they say. Sold everywhere.

HOSTETTER'S CELEBRATED STOMACH BITTERS!
A PURE AND POWERFUL TONIC.
CORRECTIVE AND ALTERNATIVE
Of Wonderful Efficacy in Diseases OF THE
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers Fortifies the System against Malaria and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels; Strenues the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Bile and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated.
Persons of feeble habit, liable to Nervous Attacks, Losses of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.
Indistinctly infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it find under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.
Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretory organs.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the aristocracy and fashionable world on account of the superior articles for the toilet each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNONA ODORATISSIMA and imported from the Philippine Islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BEAU MONDE to try as a handkerchief perfume.

THE EXTRACT OF YLANGYLANG

AND

THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Messrs Rigaud and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention the

Ess Bouquet	Wood Violet	Mignonette
Jockey-Club	Maréchale	Jessamine
New Mown Hay	Mousseline	Magnolia
Field Flowers	Rondeletia	Moss-Rose

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is uncontestedly superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing perfume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to perfume.

DENTORINE

AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWDER

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously perfumed.

Premium Purchasers of Two Articles of RIGAUD & CO., are entitled to receive Gratuitously the

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault et Co.'s Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Glands.

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Phthisis and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DUBUISSON'S

(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Lungs

NERVOUS HEADACHE,

NEURALGIA,

DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure Inflammation of the Bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copaiba and Cubebs. The Injection is used in recent, and capsules more chronic cases.

GENERAL DEPOTS:

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco. Established in 1864, for the treatment of Sexual and Venereal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis, in all its forms, Seminal weakness, Impotency, etc. Skin diseases (of years standing) and Ulcerated Legs successfully treated.

Dr. Gibbon has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London, and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Cannon Place; Red Cross, Broad Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street; Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street.

Dr. GIBBON has spared neither time nor money in seeking out new and valuable remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrible situation thousands suffer under a deadly disease, and are suffering with any of these horrible, life-destroying maladies—see that they are cured, and cured before it is too late. Send them immediately to Dr. Gibbon, a physician who has made private diseases his special study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with increasing certainty, the following train of morbid symptoms, unless counteracted by scientific medical measures, viz.: Sallow complexion, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rattling of leaves and rattling of chariots, loss of vision, blue ed. intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, curved tongue, fetid breath, coughs, consumption, night sweats, morbosities and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them not delay to obtain immediate relief.

Dr. Gibbon is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free of any damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing \$15 in currency or \$10 in gold, in a registered letter through the Post office or through Wells, Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr. J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 262.

Remember to put BOX 262 on the envelope.

Consultations FREE.

Correspondents will please inform Dr. Gibbon that they read his advertisement in the British Colonist.
